

# LOOK TO US FOR ALL YOUR DISPLAY NEEDS!

The most durable banners in the industry deserve the most durable hardware!

Since 1984, BannerFlex® has been the leader and innovator for light pole banner brackets. Visit www.banerflex.com to see all the models and all the supporting information and data. No other company supports you like Consort! And no other hardware supports your banners like BannerFlex. Through constant research and development we've introduced:

1984 • Very first fiberglass-arm bracket 1988 • First adjustable and "canted" bracket 2003 • Revolutionary "Airow" bracket (maximum wind reduction) 2004 • Unique, "Metro<sup>®</sup>" bracket (specifically for "fluted" poles)

And now, the new "RoundPro®" fiberglass arm for increased wind reduction on our standard hardware!

The first 12-year warranty, wind tunnel tested to 100 mph

Introducing the "RoundPro™" fiberglass arm. A new composition of fiberglass and resin for up to 23% more bending. If you don't have the Airow<sup>®</sup> or the RoundPro, you're just resisting too much wind!

Please see our revolutionary "Airow" bracket in the action video under "Resources" on BannerFlex.com.

Customize your digital or screen-printed banners!

Our design staff can personalize your banners with names, logos or greetings. The possiblities are endless. Send us your logos or photos....or let us create it for you. Contact us for custom pricing.
